1. Between 0800 and 1430 on 29 July 1954, 34 MiG-15s and 3 Yak-11s were observed at Deutsch Wagram airfield. There was a 6/10 overcast at an altitude of about 2,000 meters, a southwesterly wind of about 10 km/h, and good visibility. No air activity was observed. Soldiers were observed moving near the aircraft dispersal areas and, in particular, near the edge of the woods in the northwestern corner of the field. There, a sleeve target was suspended between two masts. The engines of the MiG-15s were temporarily being raced up. A Moskvich-type truck crossed the field. Many ruts of tractors were observed on the roads and on the leading from the camp at the edge of the woods to the airfield. 25X1
